

FIRST ANNOUNCEMENT

Chaos, scattering, and semi-classics: A symposium in honor of Eric Heller on his 70th Birthday

July 10th - July 14th 2017

Centro Internacional de Ciencias A.C.
Cuernavaca Morelos

This conference aims to convene chemists, physicists and scientists from other fields, who develop new understanding, new tools and new applications in fields where Eric Heller has been active, with a focus on semi-classics and quantum chaos as well as other fields of interest to Eric Heller. The subjects include but are not limited to:

Quantum chaos
Semi-classics
Scattering and transport
Many-body problems
Wave packet dynamics

There will be invited talks, contributed talks and poster sessions.
Parallel sessions will be avoided if possible

Organizing committee
Lev kaplan
Yenni P. Ortiz
T.H. Seligman
J. Vanicek

Deadline for contributed talks May 15th 2017
Posters June 10th. 2017

Registration fee 150 US\$ (students 75 US\$) or its equivalent in Mexican pesos or euros
The fee can be paid in cash or traveler cheques upon arrival. Credit cards cannot be
accepted.
